

Arc Bed

The Arc range is named from the simple Arc that features strongly in each design.

The Arc bed's construction is similar to that of the Arc mirror, hence the name. It's available in queen, king and super king sizes and features a fixed slat base. You can either buy a full bed, just the base or just the bedhead, meaning this versatile design can be used in many different ways. You can also pair these with the Design Mobel mattresses to be able to offer a complete solution for our customer's.

CARE/CLEANING INSTRUCTIONS

It is important to remember that wood is a living material that can be affected by daylight, temperature, humidity, and wear. Therefore, we do not recommend placing your furniture in direct sunlight or near sources of heat. This is due to the natural characteristics of wood as it expands and contracts with changes in humidity. Placing your furniture in these environments for prolonged periods of time may cause the timber to dry out, shrink and crack. Avoid direct heat and direct moisture.

- Wipe away spills immediately, and if you have a timber table, use placemats or coasters to avoid staining.
- Avoid using harsh chemicals or abrasive cleaners to clean the surface. Doing so will strip the clear coating over time.
- Combat oil build-up on surfaces by wiping them with a soft micro-fibre cloth.
- Avoid dragging or knocking heavy objects against the surface.
