

Aspen Chair w/Wooden Legs

The Aspen chair features a laminated plywood seat and solid oak base. It comes in five colour ways: natural oak, grey, black, green and natural oak with a pressed tan leather seat. The leather version uses cutting edge technology to form the leather to the face of the chair seamlessly while still leaving the plywood edge and back of the chair exposed, the leather will age beautifully over time and being a natural product adds a real softness to the clean design.

CARE/CLEANING INSTRUCTIONS

Clean with a soft damp cloth and water only. Do not use chemical cleaners on any surfaces. Avoid leaving water sitting on the wood as this can cause small spots and permanent marks - wipe immediately with a dry cloth. Wipe the lacquered surface using straight strokes not in a circular direction. After wiping the area use a dry cloth to (remove buff) remove any moisture left on the surface. We do not recommend placing your furniture in direct sunlight or near sources of heat. This is due to the natural characteristics of wood as it expands and contracts with changes in temperature and humidity. Placing your furniture in these environments may cause the timber to dry out; shrink; warp or crack. Do not place hot or sharp objects on the surface of the wood as this can cause irreparable damage. Also avoid using any harsh solvents such as nail polish remover/alcohol at all times.
