

Segment Side Table

The Segment range is made out of American white oak veneered plywood that come in either a Natural, Green, or Black finish. The range includes coffee tables, side tables, mirrors and trays. The mirrors and trays feature a trim that only wraps around three quarters of the circumference, this gives them the ability to nest into each other, which is an especially nice detail on the mirrors when they're hung next to each other. This element of the design is where the name for the range came from. The tables have bases that are made out of powder coated steel and come in either black, green, or white.

CARE/CLEANING INSTRUCTIONS

To clean, wipe with a damp cloth. Do not use abrasive cleaning products or materials. Keep away from direct sunlight and sources of direct heat, as these can cause cracking or warping. Keep dry and avoid excessive exposure to humidity, as this can also cause cracking or warping.
