

RADIAL FLOATING SHELF

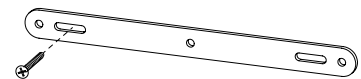

CITTÀ

Installation Instructions

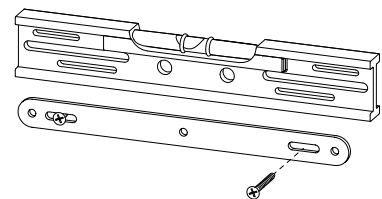

| | | |
|---|--|---|
| Screws x 2 | Locator Pins x 3 | Cam Lock Grip x 1 |
|  |  |  |
| Bracket x 1 | Shelf x 1 | |
|  |  | |

We recommend using a qualified builder to install this product. We also recommend hitting a stud with at least one screw.

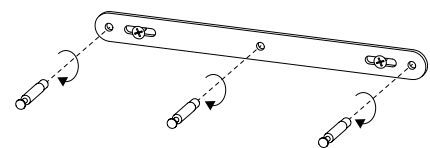

1. Locate bracket at desired wall position and screw in one screw. If screwing into a drywall, you may need to use a dry wall (GIB) fixing as provided.

2. Level the bracket using a spirit level and screw in the second screw.

3. Screw the locator pins to the wall bracket.

4. Locate the shelf onto the wall bracket. Using a screwdriver insert the cam lock under the shelf and turn until you feel the cam lock grip the shelf to the wall. If cam lock does not grip you may need to remove the shelf and slightly unwind the locator pin and repeat step 4.
