CITTÀ

acre chair

The Acre Chair is a collaboration between Città and Hong Kong-based industrial designer, Michael Young. Michael describes the design as a “quirky classic” with an emphasis on quality ergonomics. The design is made with eco-plastic that considers the chair’s environmental impact by using a low-carbon material derived from renewable sources. Straw fibre makes up around 30% of the composition and gives the chair a subtle speckled finish. The innovative wooden seat is made from three-dimensionally formed plywood with a natural or black finish. The versatile product has a true and timeless form, allowing it to sit within a range of commercial and residential spaces. The eco-plastic composition also allows for the chair to be used in outdoor settings.

MATERIAL

Eco Plastic made of 30% Natural Fibres. 70% Plastic

CARE INSTRUCTIONS

Dampen cloth in a solution of water and a neutral detergent and wipe clean. Remove soap residue immediately using a clean dry cloth. Avoid using scouring pads or scouring cream as they may scratch the surface.
