# arc bedhead

Elevate your bedroom with the timeless, gently curved Arc Bedhead. The Arc range is named from the simple Arc that features strongly in each design, and is available in queen, king and super king sizes. You can either buy a full bed, just the base or just the bedhead, meaning this versatile design can be used in many different ways. Designed in New Zealand by our in-house 3D Design team, David Moreland and Nikolai Sorensen.

\*Standard width between headboard bolts 91.5cm. Consistant across all bed base sizes.

## ASSEMBLY REQUIRED

Assembly required.

## CARE INSTRUCTIONS

It is important to remember that wood is a living material that can be affected by daylight, temperature, humidity, and wear. Therefore, we do not recommend placing your furniture in direct sunlight or near sources of heat. This is due to the natural characteristics of wood as it expands and contracts with changes in humidity. Placing your furniture in these environments for prolonged periods of time may cause the timber to dry out, shrink and crack. Avoid direct heat and direct moisture.
