# type 75 mini table lamp

At Città, we're stock a curated collection of Anglepoise's iconic table lamps, floor lamps and wall lights. The brand dates back to 1930s Britain when vehicle engineer George Carwardine invented a unique spring that formed the blueprint for the first Anglepoise lamp. The Type 75 Mini Table Lamp takes the original Type 75 design in a new, modern direction. The simplified lamp features a curved form with carefully considered details, including an integrated push switch, shade movement, and cables discreetly routed through the arm.

## MATERIAL

Powder coated Aluminium. Chrome plated fittings. Cast Iron base with Aluminium cover. Bulb included.

## COLOUR

Turmeric Gold  
ANG33160

Mole Grey  
ANG33159
