# ab table lamp

The AB Table Lamp is the result of a collaboration between product designer Alex Buckman and Città's 3D design team, David Moreland and Nikolai Sorensen.

The lamp celebrates the beauty of simple, organic forms combined with a pared-back material palette that complements a diverse range of interiors.

The shade is crafted from hand-blown frosted glass and the base is made from solid marble. A dimmable LED light source means the lamp creates a subtle, sophisticated glow.
