Aiko Sofa

Product Information Document

Comfort and style come together in the practical design of the Aiko sofa. It boasts generous proportions with unique sled legs to give the sofa a slight lift while keeping its form firmly grounded. The sofa is designed to sit with the wider Aiko custom-made furniture collection. The collection is fully modular with a myriad of possible combinations and dimensions across the range of chairs, chaise, ottoman and coffee tables.

Designed in our New Zealand studio by David Moreland and Nikolai Sorensen and made in your choice of configuration and fabric. The images on our website are an overview of the available options - additional fabric swatches can be viewed in the product and fabric specification section.

Custom Configurations

Custom Aiko Sofa configurations available at request. Please inquire for a quote. Create a unique combination of our available components to suit you space.

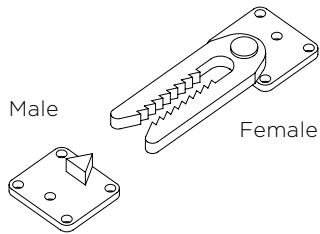

Care Instructions

Avoid direct sunlight. Vacuum regularly using an upholstery attachment on low-suction. Rotate cushions regularly. All fabric stretches as part of the general wear process. Feathers may work through the fabric over time. Attend to spills immediately by soaking them up with a clean, absorbent, lint-free sponge or cloth. Gently dab; do not rub vigorously. If cleaning products are required, consult a furniture cleaning specialist. We do not recommend using any fabric protector treatments, as this voids your fabric warranty. Please note, all fabric warranties are with the fabric supplier. Città sofas have a 5-year warranty that covers the frame and fill.

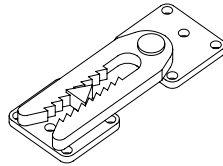

Aiko Component Assembly

The Aiko sofa is connected using a locking system located on the base of each component. Locking components prevents parts of the configuration from moving around independently.

Lock Disconnected

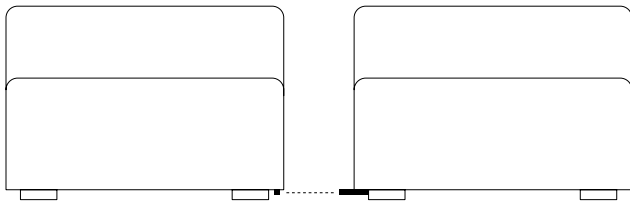

Lock Connected

Step 1

To connect two components, place each unit side by side aligning the male and female part of the lock.

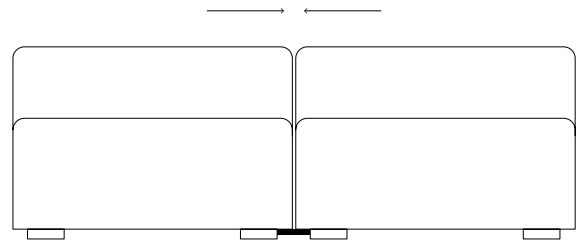

Each component has two male locks and two female locks on opposite sides of the sofa base.

Front View.

Step 2

Push units together engaging the locking system.

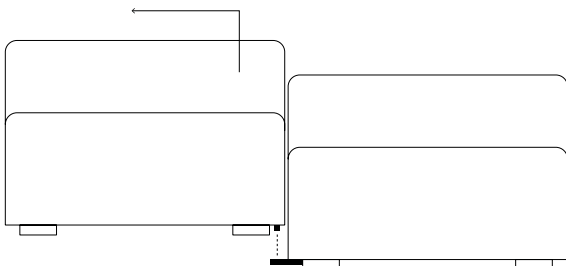

Front View.

Step 3

To separate units, lift up the male part out from female part.

Note: Do not drag the components away from each other to separate.
