

TILT SHELVING

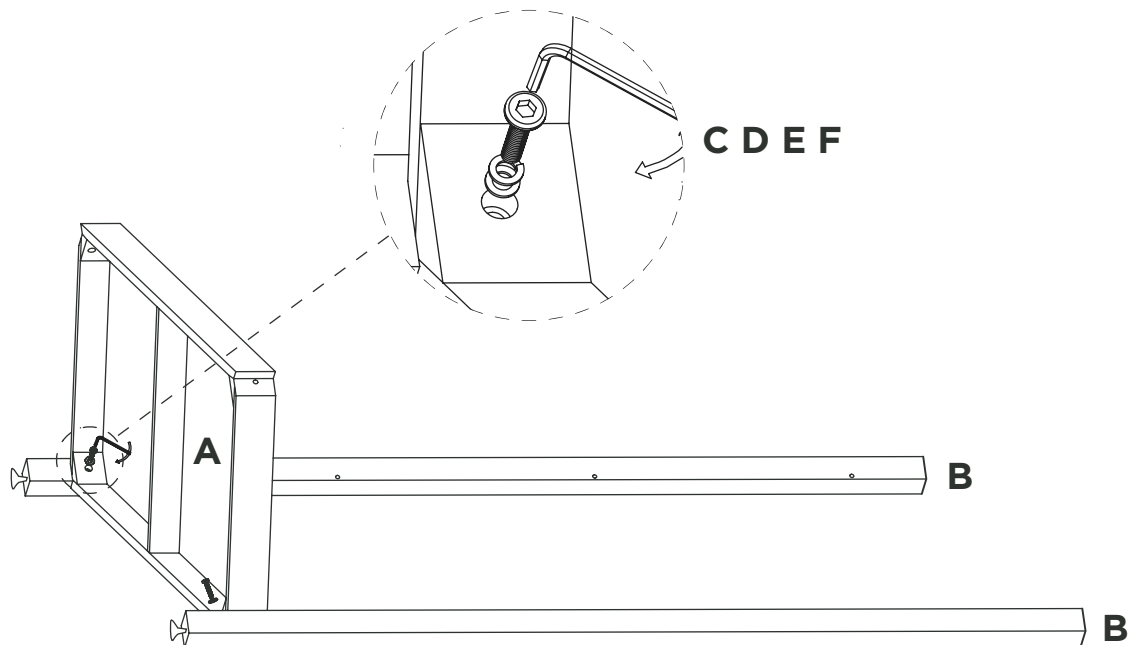

CITTÀ

Assembly Instructions

A. Tilt shelf		B. Upright with foot	
			
C. Bolt	D. Washer	E. Spring Washer	F. Allen Key
			

Begin the assembly by placing two uprights on a soft surface, making sure you have the adjustable feet at the bottom of the unit. There will always be a set of nut-serts visible on the outside of every upright, these enable the shelving to be modular. Attach the first shelf using the bolts, washers and allen key provided.

1.

Assembly Instructions

2. Continue attaching the remaining shelves using the bolts, washers and allen key provided, until all the shelves are attached to two uprights.

3. To attach the last two uprights, turn the unit over and repeat the same process as before using all the remaining bolts and washers. You will need two people to complete this last stage as the units are now quite heavy.

If you are continuing to add more bays, leave the unit on its back and repeat the same steps on the rest of the bays - see page 4 for assembly instructions.

Assembly Instructions - Multiple Unit Assembly

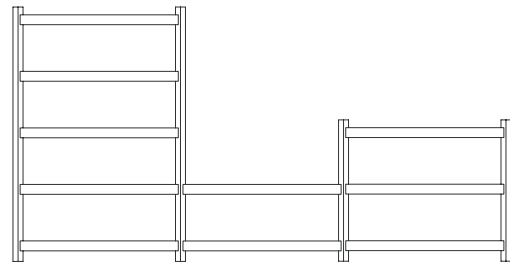

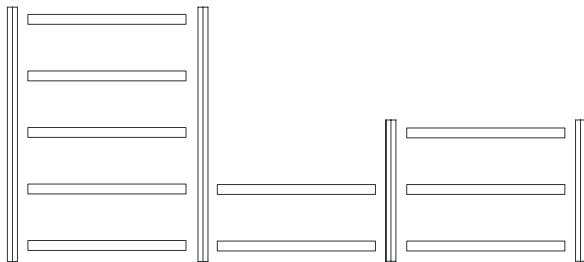

Once you have completed the first bay, leave the unit on its back and repeat the same steps on the rest of the bays. Examples are below.

This drawing shows the extra nut-serts on the outside of the upright where you attach extra shelves.

Example 1: 3x bay unit

- 10x Tilt Shelf
- 2x Tilt Upright Pair (5 Tier)
- 2x Tilt Upright Pair (3 Tier)

Example 2: 2x bay unit

- 10x Tilt Shelf
- 3x Tilt Upright Pair (5 Tier)
