

Harvest Planters

The harvest planters are a clean design, punctuated by a fine scalloped detail around their bottom edge. Individually hand made, the planters have been crafted from natural crust stone that has been stamped into a mould, replicating how the earth makes limestone.

Designed to suit 15, 20, 25 and 35cm diameter poly pots that are readily available from any plant store, these planters are perfect for both indoor and outdoor use, and are available in three colour ways and four different sizes.

Designed in New Zealand by Città

CARE/CLEANING INSTRUCTIONS

Clean with either a wet cloth or a soft brush with water.

Please note: These feature a drainage hole in the base. When using indoors, use a drip tray to avoid any water leaking through the hole.
