

Bedding Size Guide

Our bedding is based on standard bed sizes in New Zealand, Australia, and the United States. However, sizes may vary between countries and manufacturers, so we recommend checking the measurements below against your bed to ensure the best fit.

For duvet covers and quilts, these measurements are designed to sit neatly on top of the mattress. For a more draped look, consider sizing up to let the bedding hang over the sides or tuck in.

Please note: fitted sheet depths vary between product ranges. Exact measurements for individual items can be found in the product details of each product page.

Duvet Covers/Inners	cm	Inches
Single:	265 x 210 cm	55x12"W x 82.68"L
