

Jasper Morrison, 2010/2014

HAL is Jasper Morrison's interpretation of a shell chair in the tradition of the Plastic Chair by Charles and Ray Eames, whose variety of different bases enables versatile use – from dining tables to meeting rooms, from bars to auditoriums. HAL RE is a further development of this design with a seat shell made of recycled plastic.

Due to the composition of the recycled material, the different colours are interspersed with tiny specks of pigment. The colour white cannot be implemented in the new material at the moment and will follow as soon as technically feasible. The HAL RE seat shell can also be 100% recycled at the end of the product's life.

The many different chair bases can be combined either with a seat shell in plastic (HAL and HAL RE) or plywood (HAL Ply), or with a lightly padded shell covered in fabric (HAL Soft).

The related HAL Armchair rounds out the HAL family.

The recycling material for HAL RE stems from Germany's 'Yellow Bag' (Gelber Sack) collection of household waste, which primarily consists of used packaging. Utilising this recycled material instead of conventional plastic generates fewer climate-damaging emissions and also significantly reduces energy consumption.

In the version with a four-legged base and a powder-coated finish in ivory or basic dark, HAL Tube is weatherproof and therefore also suitable for use on balconies or in gardens. Special additives retard the fading of the seat shell colours from the sun's rays.

HAL RE Wood

- **Seat shell:** recycled, dyed-through polypropylene, with optional seat cushion (screwed to the seat shell).
- **Base:** non-stackable wooden base in natural or dark oak. Connecting element between shell and base in die-cast aluminium, powder-coated in dim grey.
- **Origin of wood:** oak (*Quercus robur*) from Western Europe and/or Poland.

HAL Ply Wood

- **Seat shell:** plywood.
- **Base:** non-stackable wooden base in natural or dark oak. Connecting element between shell and base in die-cast aluminium, powder-coated in dim grey.
- **Origin of wood:** oak (*Quercus robur*) from Western Europe and/or Poland.
