

# CITTÀ

## Acre Chair Eco Plastic

---

The Acre Chair is a collaboration between Città and Hong Kong-based industrial designer, Michael Young. Michael describes the design as a “quirky classic” with an emphasis on quality ergonomics.

The legs are made with eco-plastic that considers the chair’s environmental impact by using a low-carbon material derived from renewable sources. Straw fibre makes up around 30% of the composition and gives the legs a subtle speckled finish. The innovative wooden seat is made from three-dimensionally formed plywood with a natural finish.

# Acre Chair Eco Plastic

## Material

Base: Eco plastic | Seat: Eco plastic / Oak veneer

## Colour

Black
