Liana Sofa

Product Information Document

The sofa reimagines rattan furniture for a contemporary audience. The cape is made from a powder-coated steel frame, wrapped in a handwoven natural rattan - a material with a beautiful textural quality that adds warmth to any room. The cape wraps around the back of the sofa, creating an accent of texture when viewed from the back and sides, framing the soft and inviting sofa within.

The Liana collection is a collaboration between designer Scott Fitzsimons, David Moreland and Nikolai Sorensen.

Care Instructions

Regularly plump and turn any feather filled cushions to ensure that they retain their shape. With any fixed components, smooth over the fabric with your hands and pull back into the correct shape and alignment. Remove any small marks by spot cleaning with a clean damp cloth or paper towel, if further care is needed please refer to the cleaning requirements of your specific fabric. We do not recommend using any fabric protector treatments but if you do, please ensure it's water based. Pilling may occur occasionally as a result of normal daily wear and should not be considered as a fault. Fibre pills can be removed by a battery operated pilling tool available from most haberdashery stores. Vacuum on low suction using a soft upholstery attachment and avoid direct sunlight.
